A New Products – For Retail

February 2005

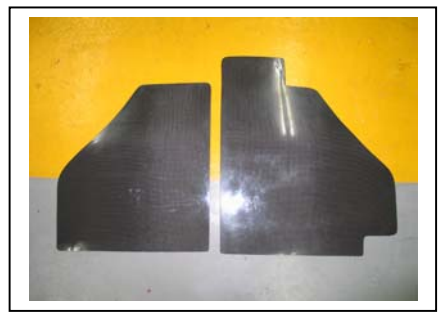

"RevoZport Racing Technology Ltd." is a car tuning company that specializes in race preparation, geometry setup and custom fabrication of carbon fibre and FRP parts for high performance cars such as BMW, Porsche, Ferrari, Lotus etc. With our team of in-house designers we are able to design and manufacture most products in the finest quality for the best performance. Our in-depth knowledge and experience in car tuning have led contributed to many successes for many race teams in the Pacific Rim.

"RevoZport" products include carbon fibre products, race tyres, lightweight flywheel, air intake systems, racing exhaust pipes, oil cooler, etc. A new range of products includes Porsche 996 GT2 Facelifted carbon kit, BMW M3 CSL type body parts, BMW X5 Silver and Black carbon fibre interior kit, Ferrari F360 NGT kit (for NGT cars only), Mini "Orciari" Body kit and the upcoming Mini Cooper carbon interior kit, are presented in our website www.revozport.com. New products are added and updated from time to time. We are now inviting distributors in your region to explore the possibility of working together with us.

Best Regards,

RevoZport Racing Technology Ltd.
